Remove covid deaths, use new covid api	Aarish	Yes
Graph of covid stuff	Aaron, Shion, Brandon	Yes
Add error checking stuff	Hunter, Aarish	Yes
Display news	Aarish	Yes

Plans for next period

1. Add accessibility feature #1 - Creation of a saturation values to the background in order to help visual impairments
2. Add accessibility feature #2 - Creation of different fonts to help those with reading impairment such as dyslexia
3. Show 7 days of weather forecast
4. Limit the number of news results
5. Translate foreign news articles
6. Clarify city inputs
7. Add a loading screen so users know it is working
8. Link to plane ticket website
9. Display airport names
10. List countries in alphabetical order

Task assignment per team member (to be completed before the next meeting)

Task description	Assigned to
Add accessibility feature #1 - Creation of a saturation values to the background in order to help visual impairments	All
Add accessibility feature #2 - Creation of different fonts to help those with reading impairment such as dyslexia	All
Show 7 days of weather forecast	Hunter
Limit the number of news results	Aarish
Translate foreign news articles	Brandon
Clarify city inputs	Aaron
Add a loading screen so users know it is working	Shion
Link to plane ticket website	Hunter and Aarish
Display airport names	Shion
List countries in alphabetical order	Aaron
Autofill city inputs in search bar	Brandon
Clarify the location displayed for weather	Aaron

Project management status

1. We are slightly ahead of schedule according to our burndown chart
2. Communication through Discord and mob coding are still working very well
3. We have finished collection responses to our user study, and we can now begin to analyze the collected data.

Minutes from previous meeting

During our last meeting, we discussed the feedback we received from our team meeting and initial user study interviews. We decided on using a graph to display coronavirus data and remove the death count so that we won't scare our users away. We discussed our plans for implementing accessibility features and planned out a timeline for our remaining user study interviews.
