SCRUM REPORT and MEETING AGENDA

Report #: 2   Project Name: _____Travel Ahoy_____

Date:__4/8/21_ Prepared by: _____Hunter Baker_____

Attendees for the meeting
1. Brandon Stokes
2. Shion Ito
3. Aaron Brown
4. Arish Brohi
5. Hunter Baker

Agenda for the meeting
6. Discuss front-end implementation progress
7. Discuss back-end implementation progress
8. Discuss difficulties finding Train API
9. Discuss what changes need to be made to our sprint 1 goals
10. Discuss the layout of the main page and how it will fit together

Overall accomplishments since last meeting
1. We have learned and begun to implement Bootstrap
2. We have obtained keys and begin to implement the Plane API
3. We have added buttons to connect the two front end pages together
4. We have added the interactive map on the front end
5. We have added a background image to the landing page

Tasks completed by each team member since last meeting

Task description	Assigned to	Completed?
Adding a background image	Aaron, Brandon, Shion	yes
Add interactive button to connect pages together	Aaron, Brandon, Shion	yes
Build the general layout of the main page	Aaron, Brandon, Shion	yes
Implemented basic plane API features	Hunter, Aarish	yes
Hosted website on Heroku	Hunter, Aarish	yes
Obtained access keys for other APIs	Hunter, Aarish	yes

Plans for next period
1. Add a country dropdown menu on main page
2. Add the boxes where the API information is going to be

Scrum Report Form. CSCE 315 Programming Studio

3. Attempt to load jQuery and Bootstrap-select to add some functionality
4. Add the boxes where the API information is going to be
5. Pretty up the landing page
6. Implement OpenWeatherMap API for finding weather data
7. Implement OpenStreetMap API for finding driving time
8. Implement Covid API for finding coronavirus data
9. Implement more plane API features
10. Add endpoints to heroku to test API interactions

Task assignment per team member (to be completed before the next meeting)

Task description	Assigned to
Implement more plane API features	Hunter, Aarish
Implement weather API	Hunter, Aarish
Implement Covid API	Hunter, Aarish
Add country dropdown menu	Aaron, Brandon, Shion
Add boxes for where the API information is going to be	Aaron, Brandon, Shion
Learn more about jQuery and Bootstrap select	Aaron, Brandon, Shion
Implement mapping API	Hunter, Aarish

Project management status
1. We are on track to have a working prototype by the end of this sprint
2. We need to discuss with the TA's about our issues finding a suitable train API
3. Communication through discord has worked well so far.
4. Since we are unfamiliar with parts of this project, pair-programming has worked well to keep us all on the same page.

Minutes from previous meeting

Last meeting we discussed how the hosting of the website is going to work on the back-end and we also discussed the layout of the front end with who will be working on the front end or the back end (5 minutes). We later talked about the future plans of the project with adding a landing page and a secondary page, how the APIs work, and how we are going to connect the front end and the back end together (3 minutes). Lastly we talked about our vision for the project and how we want it to turn out (7 minutes).
